---

Pavel
I'm on flight to Miami through connections tomorrow all day. Will appreciate it if you could call me tomorrow Wednesday Dec 18 around 1130pm (late night) IL time.
+972-506-28-6600.
Best
EB

>>>
>>> 1) As promised I am attaching a list of Cisco System Executives and Board Members.
>>> We have been working our way through a lower level contact from a conference in Frankfurt. We have a conf. call set to Jan. 6th with Cisco

Security CTO, and hope to meet him when he visits Israel ten days later.

2) We are also working on integrating our software with HP's SDN controller.
Ehud - I remember you told me that you know HP's former CEO well. Do you still have connections there?

3) As I wrote in the previous email we were working on a technology that would enable us to deploy our products in non SDN network. We found a way to make it work. This means that we can install our product on today's networks. Ehud - do you think you can help us find a Beta in an Israeli Enterprise/Organization with security needs (Bank Hapoalim/Leumi, Bank Israel, Insurance, Govt etc)?

Thanks,
Pavel

> - We are looking for connections to Organizations that are currently SDN and have interest in Network Security. Right now those are mainly Wall St. financial institutions (JP Morgan, Citigroup, Bank of America, UBS, Fidelity and Goldman Sachs). We are currently talking to Goldman. Around Jan. 2014 we will appreciate introductions to the others.
